Telugu

### PROFILE SUMMERY

I started my career as a project engineer in the lift industry, but my passion is web development. So I learned front-end and back-end technologies in web development. I am eager to contribute my skills as a React developer. I am excited to collaborate on projects that utilize front-end technologies to create user-friendly and efficient Web applications.

### WORK EXPERIENCE

#### Project Engineer

Johnson Lifts Private Limited, New Delhi.

2017-2021

- Supervised and coordinated the installation of elevator systems according to project timelines.
- Conducted thorough inspections to ensure compliance with safety regulations and quality standards.
- Conducted regular progress meetings to keep clients informed about project developments.

### CERTIFICATION COURSES

- REACT
- CCNA Routing & Switching.
- Diploma in Computer Application.

### PROJECTS

#### 1)Project Title: Personal Portfolio Website

**Objective:** Design and develop a dynamic and responsive personal portfolio website using React to showcase skills, projects, and professional experience.

**Tech Stack:**

- Utilize React.js for the frontend development.
- Use CSS for styling and responsiveness.
- Employ React Router for smooth navigation between different sections.

#### 2)Project Title: To-Do List Application

**Project Description:** Developed a dynamic and responsive To-Do List application using React, showcasing strong proficiency in front-end web development. The application allows users to add, edit, and delete tasks, providing a seamless user experience.

#### 3)Project Title: Social Media App

**Project Description:** Developed a dynamic and responsive social media application using React, JavaScript, and related technologies. The project aimed to create an engaging platform for users to add ,edit ,upload and delete tasks(CRUD operation).

**Technologies Used:** React ,HTML ,CSS ,JavaScript (ES6+) ,Local Storage API, Responsive Web Design ,Git & Deployment platform(Netlify).
